

## Bedtime Story For The Little Ones

UNCLE WIGGILY AND THE WAR STAMPS.

By HOWARD R. GARDNER.

"Yess, I think I'll get some," said Uncle Wiggily Longears, the bunny rabbit gentleman, sort of talking to himself as he sat in his hollow stump bungalow one day.

"Get some what?" asked Nurse Jane Fussy Wussy, the muskrat lady housekeeper. "I don't need any more eggs, if that's what you are talking about."

"I want to thank you," the bunny answered. "I was reading about war savings stamps."

"What are they?" asked the muskrat lady.

"They're to help a friend of mine—Uncle Sam—with the war," explained the bunny. "You see every time you have a little spare money you buy a war stamp and stick it on a card, and after a while you have a lot of them, and you keep them until after the war and Uncle Sam will buy them back from you."

"Is Uncle Sam any relation to Uncle Butters?" asked the muskrat lady.

"Well, yes, in that he's a good friend to all who are good to him," answered Uncle Wiggily. "But I can't stop to talk any more now. Nurse Jane, I'm going to buy some stamps to help win the war."

Putting on his tall silk hat, and with his red, white and blue striped yachtsman's crutch under his arm, off started the bunny rabbit gentleman to buy some war stamps.

In the hollow tree postoffice, when Uncle Wiggily asked for war stamps, "We have nice fresh ones, with plenty

## Guarding Our Lines

Guarding our lines is like guarding our health—we must encourage the care of our bodies—train our organs for healthy endurance, efficiency and full achievement. It is not so much a necessity to fight disease as to cultivate health.

If we want to increase our chances for long life—Dr. Pierce, of the Surgical Institute, Buffalo, N. Y., says: "Keep the kidneys in good order. Try to eliminate through the skin and the testicles the poisons that otherwise clog the kidneys. Avoid eating meat as much as possible; avoid too much salt, alcohol, tea. Try a milk and vegetable diet. Drink plenty of water. Obtain Auric (double strength), for 40 cents at drugists, and exercise so you perspire—the skin helps to eliminate toxic poisons and cures acid." For those easily recoiled symptoms of inflammation, as backache, swelling, "water," or if uric acid in the blood has caused rheumatism, "rasty" joints, stiffness, get Auric at the drug store, or send Dr. V. M. Pierce, Levee Hotel, Buffalo, N. Y., 19 cents for trial package.

Stroud, Ohio. "I suffered for 2 years with kidney trouble. I saw Dr. Pierce's advertisement in the paper and wrote for a trial package of Auric. It helped me. I want to the drug store and bought a supply of Dr. Pierce's medical discovery. I bought the Golden Medical Discovery, one package of the Auric Tablets, and a vial of the Pleasant Pellets. The Golden Medical Discovery cured me of bowel trouble, and the Auric of the kidney trouble." Mrs. Mary Jane Fisher, Route 5.

## Beauty Chats By Edna Kent Forbes

## More Letters Answered.

**VERY Much Worried**—The skin of the nose is too oily. You can overcome this by washing it daily with warm water and liquid green soap, rinsing in warm water, and then rubbing with ice. You'll find the powder will stick easily, then.

**Margaret**—If you are getting thinner, the arms will get thinner, too, for the arm seems to change its shape with every pound of fat taken on, or lost. How about drinking four glasses of half milk and half cream every day? Or taking four tablespoons of olive oil every day? To keep the hair light, squeeze the juice of a

lemon into the rinse water, when you shampoo, and dry the hair in the sun whenever you can.

**High School Girl**—Of course it would be all right for you to write to your friend in the aviation corps—write often, for the boys in France like nothing better than letters. As for what to write, you'll know that better than I. Write all the interesting news concerning yourself and what you do; any news that concerns your common friends—just the sort of chatty things you'd tell him if you were talking to him.

**Ann**—No, the henna shampoo will not stain, or change the color of the hair; it simply brings out pretty lights in it. To make a stain, you would have to buy plain, powdered Egyptian henna, which is different from the henna shampoo.

It doesn't matter whether you ex-hale through the mouth or not, when doing breathing exercises, though it is better to do so.

**Marjorie E.**—Wash the hair once in three weeks. If it gets very oily between shampoos, after about two weeks sprinkle it with powdered orris and brush this out of the hair; this makes it fluffy. You probably need a hair tonic.

**Mrs. J. E.**—I'll write a Chat about blackheads on the nose in a few days.

**C. L.**—I do not think the henna shampoo will answer your purpose, for it is nothing but a shampoo with just enough henna in it to bring out the pretty lights in the hair. It does this, perhaps, by catching a thread of hair here and there and bleaching it a shade or so—enough to produce the effect of sunning. Of course the sun itself bleaches healthy hair in just this way. And if you used the henna itself, the stain would make a red, rather than a brown shade.

**X. Y. Z.**—You can wear deep brown and certain soft yellow; greens and gray blues and fairly vivid blues like Pekin, and apricot shades; grays with other colors, combining pinks and very soft reds. You need the unusual shade of a color, for your hair is an "in-between" tone and needs bringing out.

**Constant Reader**—Did you have any teeth pulled? If so, this might cause those wrinkles. Try massaging across them with flesh building cold cream, and follow this with ice rubs.

## Daily Novelette

THE MYSTERIOUS NEIGHBOR.

**MRS. SNEPPERS** was in a terrible way. She had made a most remarkable discovery and therefore it was not natural that she should call in such an individual as Mr. Sherlock Bones, the detective whose powers were greater than any one man in history.

"You see, it's this here way," said Mrs. Sneppers as the great detective lounged with apparent unconcern in a large Morris chair that had long ago taken up any useful purpose. "It's this here way. This here neighbor of mine and my husband's is all to the hump. He's a guy what only a month ago had a full set of whiskers that ran wild all over his face and made him look like a bear for all the world like a animated bunch of alfalfa. But three weeks ago this here fellow walks home with nothin' on his face except a string of little mustach and hair no longer you'd mistake him for one of them there Sutherland twin sisters. Two weeks ago this here same gink struts around with nothin' on his face 'ceptin' a little mustache here and there. His hair was no longer long and he looks like a kid. 'Mornin' what do you think I seen? The goob didn't have no mustache or nothin', just a plain young feller. Believe me this here neighbor of mine is a crook. Take it from me, Steve, he's the crookedest darn crook that ever crooked. Now you see 'im, Steve."

"This matter shall be attended to at once, madame," replied Sherlock Bones in a most gentlemanly manner. "Leave all this guff to me and I'll hand that goob inside of two hours."

Falling from his pocket a compass, a periscope, a snoodle glass and a horse's bridle as well as a complete disguise, Sherlock soon left the house disguised as an alien submarine.

In forty minutes Sherlock was back at the house with his bill. Some work, eh? What else would you expect from a detective that was able to detect things miles away; a man with such an eye that he could pop it around a corner and see all that was to be seen without himself being seen?

"Madame," calmly spoke Sherlock as he handed in his bill with a total charge of thirty-eight dollars; the thirty dollars being for his work and the eight dollars for a pair of pants he had ripped while climbing over a board fence in the rear. "Madame, the mystery is solved. You hand it to me, don't you? No mystery now, all is over! One weak your neighbor wore wild whiskers. He was Knuck Arden. The next week he was a portion of East Lynna. The next week he was a fellow named Hamlet. This week he is a jaff bird in 'Alas Jimmie Valentine.' Madame—your neighbor is a MOVIE HERO.

Don't reprint our specialty. Allen Rums & Cycle Co., 464 N. Oregon St.—Adv.

## 14 Years Ago Today

From The Herald of This Date, 1904.

**ABOUT \$1,000** has already been subscribed toward the formation of a club of 25 business men, each to donate \$100, for the development of new industries, and the attraction of manufacturing to El Paso. The \$1,000 will be used as a bonus for the encouragement of industry and manufacturing.

Viceroy Alexieff personally took command of the Russian fleet today, according to St. Petersburg dispatches. One Russian newspaper states that it is probable that a British submarine sunk the flagship Petropavlovsk.

A loss of \$125,000 was incurred by the Gulf Refining company last night when one of its plants at Beaumont, Texas, burned.

June A. Hunt, of Chihuahua City, has completed a deal involving \$30,000 by which the Santa Elena ranch, belonging to Miguel Sanez, passes to Frank McQueen, of Denver, Colo. The property included 32,000 acres of land.

Pietmaster T. B. Oshausen has made public figures showing that the postoffice receipts of the El Paso postoffice increased 16 percent last year over the year before.

J. A. Merziman received news today that his aunt, Miss Louisa Minks, of Paris, France, has died, leaving him \$10,000.

E. H. Harriman, the railroad king, will be in El Paso tomorrow night, according to a wire from his secretary.

A flow of 1000 barrels of oil a day has been struck in Tamaulipas, William Delator, of New York, is in town for the purpose of completing the El Paso Brewery's plant and putting it in operation.

## HOROSCOPE

Wednesday, April 17, 1918.

**THIS** is an unfortunate day in planetary direction, according to the reading of the stars. Saturn rules with evil power, while Neptune is adverse.

Under this away new dangers and complications may arise, in the war, owing to treachery and hidden influences that will be revealed. It is not a promising government for the navy or for those who travel by water.

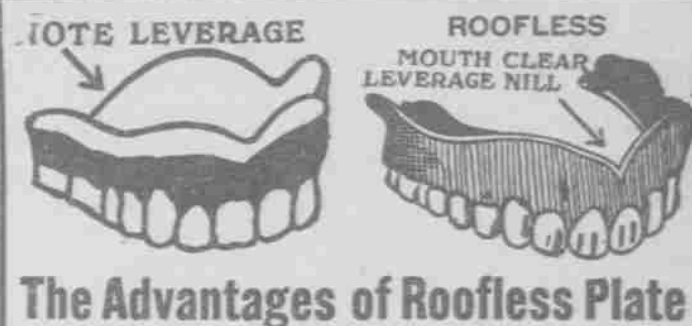

Strange to say the Great Lakes will participate in the sinister effects of Neptune. Storms and disasters are foretold for the spring and summer. In the chess game of war there is to be from this time on always the danger of pause in which the developments new strength. Armistice is a possible menace.

Peace that may be agreed on suddenly is one of the indications that astrologers emphasize, but they declare that if it comes this year it will not be the peace with victory, but the peace that precedes a second war even more horrible than the present one.

All the aspects most threatening to the welfare of women are noted by the stars. In the United States all the young should be safeguarded. Trouble in the West Indies is foretold and this may mean serious storms, but the chances are that there will be riots and disturbances among the people.

Dark days are prognosticated for many in the United States, owing to chaotic policies in connection with the war. Many changes among those who lead men, whether in civil or military affairs, are prophesied.

The stars that indicate chaos seem

## The Advantages of Roofless Plate

1. As the part next to the gum is of very soft rubber, it gives in chewing, as the natural teeth, thereby enabling you to eat food impossible with the old style plate. You simply grind your food with the old style plate. You cannot chew it.

2. By the roof of the mouth is clear, it can be put in immediately after extraction and the plate settles with the gums as there is no hard ridge in the roof of the mouth to hold it back. When these plates are put in immediately after extraction and "setting" with the gums, of course there is no plate in the world that can come anywhere near the fit of these.

3. Naturally they can be made to fit any mouth—and mouths that cannot wear old style plates—as the roof deep, shallow, flat, is not taken into consideration at all.

4. They have a 100 per cent better suction—soft rubber as against hard. This is paper-accurate, the one-fourth inch thickness of the old roof plate.

5. Comfort, taste, freedom from voice interference, and many other advantages that will suggest themselves to you if you will look at the diagram. Teeth extracted in the morning, plates delivered the same day. Showing toothpick between the teeth—exactly the same as in the natural teeth.

Transparencies shows patented attachment of these teeth—exactly the same "pivot" crown is used as on the natural root.

No "rubber" rubber—no gums show—exactly same as your natural teeth.

THE COST is no more than any first class dentist will charge for old style plates. Come in and let us show you these plates—they will appreciate its many advantages.

NOTE—See our new "Removable Bridge Work"—it is exactly half the cost of fixed bridge work and much more sanitary. We are the Southwestern Dental Co.

**NEW SYSTEM DENTAL CO.**

SOUTH EAST CORNER EL PASO AND SAN ANTONIO STS.  
OVER THE AMERICAN NATIONAL BANK.  
Across the street from the entrance to Hotel Del Norte.  
Lobby Attendant. Hours 8:30 to 5:30; Sunday Mornings. Phone 284.

to show that lack of organization will affect the war work of women, who must concentrate and eliminate all overlapping activities, which contend for authority.

Persons whose birthdate it is will have an active year in business. Travel and change are foretold.

Children born on this day probably will be successful in their studies and clever. They are likely to be great favorites and to lead eventful lives. (Copyright, 1918, by the McClure Newspaper Syndicate.)

**Federal Powder Works**  
Located At Nashville

Nashville, Tenn., April 14.—It is estimated that more than 8000 are employed in the construction of the great government powder works here.

While for several weeks preliminary work has been under way it was not until today that the stage had been reached where it might be announced that he work was under full headway.

Unless there are unforeseen delays the plant will be turning out shells just as fast as they can be ordered. A million pounds of powder a day will be the capacity of the plant, which will hereafter keep a little completed. Medium and light artillery projectiles may be manufactured later.

## Ladies! Salute Him!

Discovers drug that loosens sore, touchy corns so they lift out

A noted Cheltenham chemist discovered a new ether compound called it "Treatall" and little quarter ounce bottles can now be obtained from any drug store for a few cents.

You simply apply several drops of "Treatall" upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can just lift it off with the fingers.

No pain, not a bit of soreness, either when applying "Treatall" or afterwards, and it doesn't even irritate the skin.

Hard corns, soft corns or corns between the toes, also toughened calluses just as fast as you lift off so easy. It is wonderful! Seems magical. It works like a charm.

Millions of women will hereafter keep a little bottle of the wonderful "Treatall" handy and never let a corn ache trouble. —Adv.

# ANSWER IN LIBERTY BONDS

## Your Answer Will Be Heard Around The World

In reply to Germany as to what we are fighting for. We are fighting for outraged women, crucified nuns, little children with hands and arms missing, the sinking of neutral ships without warning, for Belgium—outraged and desecrated as no nation in the history of the world has been, for France—bled white defending civilization, for England—who chose the path of honor—when Belgium was set upon by Germany.

And we are going to fight side by side with our allies in the cause of HUMANITY, until there is no vestige left on this earth, of the powers that defy God and man.

There is only one sentiment in this broad land today, and that sentiment is a determination deep in the hearts of every man that we are going to fight until we have SAVED ENGLAND; SWEPT FRANCE OF THE HUN; LIBERATED BELGIUM; AVENGED SO FAR AS IT IS WITHIN HUMAN POWER THE COUNTLESS CRIMES OF GERMANY AGAINST CIVILIZATION; BROKEN THE HINDENBURG LINE AND SWEPT THE ARMY OF THE BEAST AS CHAFF BEFORE THE WIND; HUMBLING THE EMPIRE OF HELL; AND RID THE EARTH OF THE KAISER AND HIS BREED.

# Take Your Part In America's Answer to German Savagery

The Third Liberty Loan is your opportunity. It is the most direct blow that can be struck at German military supremacy. It is the most powerful aid that can be given our soldiers in France. It means Rifles and Helmets and Gas Masks; the best protection for our men from German brutality, it means Big Guns and Shells and Airplanes—and VICTORY.

This space contributed to the winning of the war by
